MAKE UP. With a slightly damp cloth and warm iron, press lightly. Using back-stitch, join leg seam, reversing half-way along rib. Using a flat seam, join foot seam. Fold over top. Press seam. Using 3 strands of C3, 110 cm ... 43¼ ins ... long, make a twisted cord (see page 14) and thread through holes at ankle. Tie a knot 2 cm ... ¾ inch ... from each end of cord and cut ends to form tassels.

Back-Stitch Seam - This is the method most commonly used for joining knitted garments. The seam should be sewn one full stitch in from the end of each row so that all seams will be even. One stitch should be worked over every row. Darn in all ends of yarn after sewing seams.

Flat Seam.

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece of fabric.

Note-Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic-there should be as much stretch in your seam as there is in the rest of your garment.
